

Power and Type I error trade-off for pre-testing for normality

Selected threshold = 0.50000 | Gain = -0.04671 | Loss = 0.01071 | Inflation (Normal, Non-normal) = (-0.00205, 0.00530) | tol = 0.01

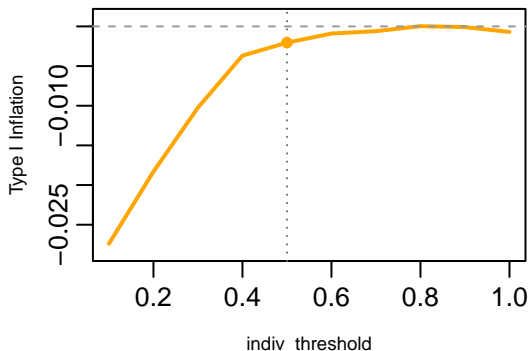

Power Loss: normal

Power Gain: exponential

Type I Inflation: normal

Type I Inflation: exponential
